Forensic Science International

Subject index

Volume 102 (1999)

Alcohol; Greece, Traffic accidents, Drugs **102**, 103

Amphetamine; Forensic science, Identification of ecstasy, *N*-methyl-3,4-methylendioxyamphetamine (MDMA), *N*-ethyl-3,4-methylendioxyamphetamine (MDE), Partial least-squares (PLS) **102**, 133

Amphetamine; Methamphetamine, 3,4-Methylenedioxyamphetamine (MDA), 3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy), 3,4-Methylenedioxyethylamphetamine (MDEA), Supercritical fluid chromatography, High-performance liquid chromatography, Gas chromatography, Capillary zone electrophoresis **102**, 13

Anodic stripping voltammetry; Gunshot residues (GSR), Lead, Antimony **102**, 45

ANOVA; Fingerprints, Epidermal ridge density, Gender difference, Likelihood ratio, Bayes' theorem **102**, 35

Antimony; Gunshot residues (GSR), Lead, Anodic stripping voltammetry **102**, 45

Batch membership; Drug profiling, Heroin, Fisher's linear discriminant modelling, Opiates **102**, 1

Bayes' theorem; Fingerprints, Epidermal ridge density, Gender difference, ANOVA, Likelihood ratio **102**, 35

Body armour; Stabbing, Impact, Knife **102**, 79

Bullet perforation; Sheet metal, Handgun bullet, Non-linear regression, Semi-empirical model **102**, 121

Capillary zone electrophoresis; Amphetamine, Methamphetamine, 3,4-Methylenedioxyamphetamine (MDA), 3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy), 3,4-Methylenedioxyethylamphetamine (MDEA), Supercritical fluid chromatography, High-performance liquid chromatography, Gas chromatography **102**, 13

Calliphoridae; Polymerase chain reaction, Mitochondrial DNA, Forensic entomology, Identification **102**, 111

Child abuse; Malnutrition, Percentile charts, Nutritional growth impairment **102**, 173

Cryobiology; Freezing, Ice crystals, Histology, Tissue damages **102**, 149

D12S391; Microsatellite polymorphism, STR, Subalteles, Sequence analysis, SSCP analysis **102**, 61

DNA typing; Polymerase chain reaction, Genotyping, Genetic markers, Urinalysis, DQA1 and PM markers **102**, 23

DQA1 and PM markers; Polymerase chain reaction, DNA typing, Genotyping, Genetic markers, Urinalysis **102**, 23

Drug addiction; Hypoxic/ischaemic brain damage, Pallidal lesions, Transient global ischaemia, Heroin **102**, 51

Drug profiling; Batch membership, Heroin, Fisher's linear discriminant modelling, Opiates **102**, 1

PII: S0379-0738(99)00084-5

Drugs; Greece, Traffic accidents, Alcohol **102**, 103

Dual detection; Gas chromatography, Mass spectrometry, Nitrogen–phosphorus specific detector, Forensic analyses **102**, 91

DYS385; Short tandem repeat locus, Y-linked STR system, Population genetics **102**, 159

Epidermal ridge density; Fingerprints, Gender difference, ANOVA, Likelihood ratio, Bayes' theorem **102**, 35

Extended suicide; Tentative injuries, Homicide **102**, 193

Fingerprints; Epidermal ridge density, Gender difference, ANOVA, Likelihood ratio, Bayes' theorem **102**, 35

Fisher's linear discriminant modelling; Batch membership, Drug profiling, Heroin, Opiates **102**, 1

Forensic analyses; Gas chromatography, Dual detection, Mass spectrometry, Nitrogen–phosphorus specific detector **102**, 91

Forensic anthropology; Histology, Immunology, Mitochondrial DNA, Morphometry, Polymerase chain reaction, Species identification **102**, 181

Forensic entomology; Polymerase chain reaction, Mitochondrial DNA, Calliphoridae, Identification **102**, 111

Forensic science; Identification of ecstasy, *N*-methyl-3,4-methylendioxyamphetamine (MDMA), *N*-ethyl-3,4-methylendioxyamphetamine (MDE), Amphetamine, Partial least-squares (PLS) **102**, 133

Freezing; Cryobiology, Ice crystals, Histology, Tissue damages **102**, 149

Gas chromatography; Amphetamine, Methamphetamine, 3,4-Methylenedioxyamphetamine (MDA), 3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy), 3,4-Methylenedioxyethylamphetamine (MDEA), Supercritical fluid chromatography, High-performance liquid chromatography, Capillary zone electrophoresis **102**, 13

Gas chromatography; Dual detection, Mass spectrometry, Nitrogen–phosphorus specific detector, Forensic analyses **102**, 91

Gender difference; Fingerprints, Epidermal ridge density, ANOVA, Likelihood ratio, Bayes' theorem **102**, 35

Genetic markers; Polymerase chain reaction, DNA typing, Genotyping, Urinalysis, DQA1 and PM markers **102**, 23

Genotyping; Polymerase chain reaction, DNA typing, Genetic markers, Urinalysis, DQA1 and PM markers **102**, 23

Greece; Traffic accidents, Alcohol, Drugs **102**, 103

Gunshot residues (GSR); Lead, Antimony, Anodic stripping voltammetry **102**, 45

Handgun bullet; Sheet metal, Bullet perforation, Non-linear regression, Semi-empirical model **102**, 121

Heroin; Batch membership, Drug profiling, Fisher's linear discriminant modelling, Opiates **102**, 1

Heroin; Hypoxic/ischaemic brain damage, Pallidal lesions, Transient global ischaemia, Drug addiction **102**, 51

High-performance liquid chromatography; Amphetamine, Methamphetamine, 3,4-Methylenedioxyamphetamine (MDA), 3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy), 3,4-Methylenedioxyethylamphetamine (MDEA), Supercritical fluid chromatography, Gas chromatography, Capillary zone electrophoresis **102**, 13

Histology; Cryobiology, Freezing, Ice crystals, Tissue damages **102**, 149

Histology; Forensic anthropology, Immunology, Mitochondrial DNA, Morphometry, Polymerase chain reaction, Species identification **102**, 181

Homicide; Tentative injuries, Extended suicide **102**, 193

Hypoxic/ischaemic brain damage; Pallidal lesions, Transient global ischaemia, Drug addiction, Heroin **102**, 51

Ice crystals; Cryobiology, Freezing, Histology, Tissue damages **102**, 149

Identification; Polymerase chain reaction, Mitochondrial DNA, Forensic entomology, Calliphoridae **102**, 111

Identification of ecstasy; Forensic science, *N*-methyl-3,4-methylendioxyamphetamine (MDMA), *N*-ethyl-3,4-methylendioxyamphetamine (MDE), Amphetamine, Partial least-squares (PLS) **102**, 133

Immunology; Forensic anthropology, Histology, Mitochondrial DNA, Morphometry, Polymerase chain reaction, Species identification **102**, 181

Impact; Stabbing, Body armour, Knife **102**, 79

Knife; Stabbing, Body armour, Impact **102**, 79

Lead; Gunshot residues (GSR), Antimony, Anodic stripping voltammetry **102**, 45

Likelihood ratio; Fingerprints, Epidermal ridge density, Gender difference, ANOVA, Bayes' theorem **102**, 35

Malnutrition; Child abuse, Percentile charts, Nutritional growth impairment **102**, 173

Mass spectrometry; Gas chromatography, Dual detection, Nitrogen–phosphorus specific detector, Forensic analyses **102**, 91

Methamphetamine; Amphetamine, 3,4-Methylenedioxyamphetamine (MDA), 3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy), 3,4-Methylenedioxyethylamphetamine (MDEA), Supercritical fluid chromatography, High-performance liquid chromatography, Gas chromatography, Capillary zone electrophoresis **102**, 13

3,4-Methylenedioxyamphetamine (MDA); Amphetamine, Methamphetamine, 3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy), 3,4-Methylenedioxyethylamphetamine (MDEA), Supercritical fluid chromatography, High-performance liquid chromatography, Gas chromatography, Capillary zone electrophoresis **102**, 13

3,4-Methylenedioxyethylamphetamine (MDEA); Amphetamine, Methamphetamine, 3,4-Methylenedioxyamphetamine (MDA), 3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy), Supercritical fluid chromatography, High-performance liquid chromatography, Gas chromatography, Capillary zone electrophoresis **102**, 13

3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy); Amphetamine, Methamphetamine, 3,4-Methylenedioxyamphetamine (MDA), 3,4-Methylenedioxyethylamphetamine (MDEA), Supercritical fluid chromatography, High-performance liquid chromatography, Gas chromatography, Capillary zone electrophoresis **102**, 13

Microsatellite polymorphism; STR, D12S391, Suballeles, Sequence analysis, SSCP analysis **102**, 61

Mitochondrial DNA; Forensic anthropology, Histology, Immunology, Morphometry, Polymerase chain reaction, Species identification **102**, 181

Mitochondrial DNA; Polymerase chain reaction, Forensic entomology, Calliphoridae, Identification **102**, 111

Morphometry; Forensic anthropology, Histology, Immunology, Mitochondrial DNA, Polymerase chain reaction, Species identification **102**, 181

***N*-ethyl-3,4-methylendioxyamphetamine (MDE)**; Forensic science, Identification of ecstasy, *N*-methyl-3,4-methylendioxyamphetamine (MDMA), Amphetamine, Partial least-squares (PLS) **102**, 133

***N*-methyl-3,4-methylendioxyamphetamine (MDMA)**; Forensic science, Identification of ecstasy, *N*-ethyl-3,4-methylendioxyamphetamine (MDE), Amphetamine, Partial least-squares (PLS) **102**, 133

Nitrogen–phosphorus specific detector; Gas chromatography, Dual detection, Mass spectrometry, Forensic analyses **102**, 91

Non-linear regression; Sheet metal, Bullet perforation, Handgun bullet, Semi-empirical model **102**, 121

Nutritional growth impairment; Child abuse, Malnutrition, Percentile charts **102**, 173

Opiates; Batch membership, Drug profiling, Heroin, Fisher's linear discriminant modelling **102**, 1

Pallidal lesions; Hypoxic/ischaemic brain damage, Transient global ischaemia, Drug addiction, Heroin **102**, 51

Partial least-squares (PLS); Forensic science, Identification of ecstasy, *N*-methyl-3,4-methylendioxyamphetamine (MDMA), *N*-ethyl-3,4-methylendioxyamphetamine (MDE), Amphetamine **102**, 133

Percentile charts; Child abuse, Malnutrition, Nutritional growth impairment **102**, 173

Polymerase chain reaction; DNA typing, Genotyping, Genetic markers, Urinalysis, DQA1 and PM markers **102**, 23

Polymerase chain reaction; Forensic anthropology, Histology, Immunology, Mitochondrial DNA, Morphometry, Species identification **102**, 181

Polymerase chain reaction; Mitochondrial DNA, Forensic entomology, Calliphoridae, Identification **102**, 111

Population genetics; Short tandem repeat locus, Y-linked STR system, DYS385 **102**, 159

Semi-empirical model; Sheet metal, Bullet perforation, Handgun bullet, Non-linear regression **102**, 121

Sequence analysis; Microsatellite polymorphism, STR, D12S391, Suballeles, SSCP analysis **102**, 61

Sheet metal; Bullet perforation, Handgun bullet, Non-linear regression, Semi-empirical model **102**, 121

Short tandem repeat locus; Y-linked STR system, Population genetics, DYS385 **102**, 159

Species identification; Forensic anthropology, Histology, Immunology, Mitochondrial DNA, Morphometry, Polymerase chain reaction **102**, 181

SSCP analysis; Microsatellite polymorphism, STR, D12S391, Suballeles, Sequence analysis **102**, 61

Stabbing; Body armour, Impact, Knife **102**, 79

STR; Microsatellite polymorphism, D12S391, Suballeles, Sequence analysis, SSCP analysis **102**, 61

Suballeles; Microsatellite polymorphism, STR, D12S391, Sequence analysis, SSCP analysis **102**, 61

Supercritical fluid chromatography; Amphetamine, Methamphetamine, 3,4-Methylenedioxyamphetamine (MDA), 3,4-Methylenedioxymethylamphetamine (MDMA, Ecstasy), 3,4-Methylenedioxyethylamphetamine (MDEA), High-performance liquid chromatography, Gas chromatography, Capillary zone electrophoresis **102**, 13

Tentative injuries; Homicide, Extended suicide **102**, 193

Tissue damages; Cryobiology, Freezing, Ice crystals, Histology **102**, 149

Traffic accidents; Greece, Alcohol, Drugs **102**, 103

Transient global ischaemia; Hypoxic/ischaemic brain damage, Pallidal lesions, Drug addiction, Heroin **102**, 51

Urinalysis; Polymerase chain reaction, DNA typing, Genotyping, Genetic markers, DQA1 and PM markers **102**, 23

Y-linked STR system; Short tandem repeat locus, Population genetics, DYS385 **102**, 159
